Plant-Based Raw Fish and Seafood Alternatives

Alternatives to Raw and Smoked Fish

Alternatives to Calamari and Shrimps

Alternatives to Surimi

Our **fiildFish P** functional stabilizing systems enable the creation of plant-based products that serve as excellent alternatives to fish and seafood. These alternatives offer a harmonious blend of sensory qualities while maintaining a familiar consistency. With the versatility to produce many fish variants through a range of color and flavor blends, products can be effortlessly crafted using standard equipment.
